

THE SINGARENI COLLIERIES COMPANY LTD

(A Government Company)

Srirampur Area

COMPLIANCE STATUS OF THE TERMS AND CONDITIONS GIVEN IN THE AIR & WATER CONSENT ORDER (CFO) OF RAVINDRA KHANI - 6 (RK-6) INCLINE.

Consent Order No: TSPCB/RCP/NZB/CFO//HO/2016-1237, dtd.06.08.2016.

S C H E D U L E - A

CFO Cond. No:	C.F.O Condition	Status of implementation
1.	The applicant shall make applications through online for renewal of consent (under Water & Air Acts) and Authorisation under HWM Rules at least 120 days before the date of expiry of this order, along with prescribed fee under Water and Air Acts for obtaining consent & HW Authorisation of the Board. The applicant can also apply for Auto Renewal of the CFO at least 30 days before the expiry of the Order as per the procedure and eligibility stipulated in the Board Circular dtd.19.11.2015 (available in Board's Website; http://tspcb.cgg.gov.in/Pages/circulars.aspx).	Strictly following without any deviation
2.	Concealing the factual data or submission of false information / fabricated data and failure to comply with any of the conditions mentioned in this order may result in withdrawal of this order and attract action under the provisions of relevant pollution control Acts.	Industry is strictly committed to conceal the factual data without giving any scope of furnishing false/fabricated data
3.	Any person aggrieved by an order made by the State Board under Section 25, Section 26, Section 27 of Water Act,1974 or Section 21 of Air Act, 1981 may within thirty days from the date on which the order is communicated to him, prefer an appeal as per Andhra Pradesh Water Rules, 1976 and Air Rules 1982, to such authority (herein after referred to as the Appellate Authority) constituted under Section 28 of the Water (Prevention and Control of Pollution) Act, 1974 and Section 31 of the Air (Prevention and Control of Pollution) Act, 1981.	It will be followed for such instances.
4.	The industry may explore the possibility of tapping the solar energy for their energy requirements.	SCCL is committed to establish and maintain Solar power plants of 300 MW (by the end of the year 2021) in three phases. ➤ <u>Under Phase I</u> – 129 MW Among 129 MW at STPP Power plant 10 MW (Commissioned), at Manuguru – 30 MW (Commissioned), at Ramagundam III Area –

CFO Cond. No:	C.F.O Condition	Status of implementation
		<p>50 MW (will be commissioned in three months), at Yellandu - 39 MW (will be commissioned in three months).</p> <ul style="list-style-type: none"> ➤ <u>Under phase II</u> – 90 MW proposed. Among 90 MW, at Mandamarri – 43 MW (will be commissioned in three months), at Bhupalapalli – 10 MW (will be commissioned in two months) , at Kothagudem – 37 MW (will be commissioned in three months) ➤ <u>Under phase III</u> – 80.5 MW proposed. Among 80.5 MW, at STPP Reservoir – 10 MW floating on pond, at Dorli II abandoned OC 5 MW floating on broken area pond, at Chennur 2A Incline Area 11 MW, at RG III OC-I Dump yard 22 MW, at Dorli-I OC Dump yard 10 MW and at Kothagudem - 22.5 MW. Phase III projects will be commissioned by the end of August 2021
5.	<p>All the conditions stipulated in the Schedule – A of the earlier CFO order of Consent Order No: APPCB/RCP/ NZB/19682/CFO/HO/2014– 620, dated: 16.05.2014 remains same. The industry should ensure consistent compliance of the condition of Schedule –A.</p>	<p>All the conditions stipulated in Schedule – A of the earlier CFO Consent Order were scrupulously following by the Industry without any deviation.</p>
6.	<p>The Board reserves its right to modify above conditions or stipulate any further conditions and to take action including revoke of this order in the interest of protection of public health and environment.</p>	<p>The Board's right to modify any of the conditions imposed and inclusion of further new conditions including revoke of this order in the interest of the public health and environment is accepted.</p>

SCHEDULE – B

CFO Cond. No:	C.F.O Condition			Status of implementation																								
1.	<p>The effluent discharged should not contain constituents in excess of the tolerance limits prescribed below.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Out- let</th><th style="text-align: center;">Parameter No.</th><th style="text-align: center;">Limiting Standards</th></tr> </thead> <tbody> <tr> <td style="text-align: center; vertical-align: bottom;">1&2</td><td style="text-align: center;">pH</td><td style="text-align: center;">6.50 –8.50</td></tr> <tr> <td style="text-align: center; vertical-align: bottom;"></td><td style="text-align: center;">Total Suspended Solids (TSS)</td><td style="text-align: center;">100.0 mg/l.</td></tr> <tr> <td style="text-align: center; vertical-align: bottom;"></td><td style="text-align: center;">Oil & Grease</td><td style="text-align: center;">10.0 mg/l</td></tr> <tr> <td style="text-align: center; vertical-align: bottom;"></td><td style="text-align: center;">BOD (3 days at 270C)</td><td style="text-align: center;">100 mg /l.</td></tr> <tr> <td style="text-align: center; vertical-align: bottom;"></td><td style="text-align: center;">Chemical Oxygen Demand (COD)</td><td style="text-align: center;">250.0 mg/l</td></tr> <tr> <td style="text-align: center; vertical-align: bottom;"></td><td style="text-align: center;">TDS</td><td style="text-align: center;">2100 mg/l</td></tr> <tr> <td style="text-align: center; vertical-align: bottom;"></td><td></td><td></td></tr> </tbody> </table>			Out- let	Parameter No.	Limiting Standards	1&2	pH	6.50 –8.50		Total Suspended Solids (TSS)	100.0 mg/l. CFO Cond. No:	C.F.O Condition				Status of implementation
		Nitrogen NO ₂	as Average 24 Hrs	120	
7.	The company shall comply with the Notification No.GSR 02(E) dt.02.01.2014, issued by the Ministry of Environment & Forests, Govt. of India regarding supply of Raw or blended or beneficiated Coal to the Thermal Power plants with stipulated ash content.				The company will strictly follows the provisions of the Notification in supply of coal to Thermal power plants with stipulated Ash content after perfect analysis of Coal samples.
8.	The company shall provide water sprinkling system at Coal Yards.				The company is strictly following this provision by fixed point water sprinkling system apart from portable water sprinkling system at coal yards.
9.	The Company shall ensure continuous water sprinkling on haul roads, at the coal handling facility and at other sources of dust emissions. The industry shall increase number of mobile water sprinkling tankers and frequency of the tankers.				The company is strictly following this provision by fixed point water sprinkling system apart from portable water sprinkling system at haulage roads. Company is going to make provision for mist spraying system at the coal handling facility and at other sources of dust emissions like transfer points and unloading points etc.
10.	The company shall extend the fixed water sprinkling arrangements for the complete Haul Road.				Fixed water spraying arrangements have been provided on haulage roads, loading and unloading points and it is being constantly maintained for effective control.
11.	The Company shall construct & commission the Sewage Treatment Plant (STP) for treating sewage from the Colony / Township in a time bound manner.				One STP of 3.0 MLD capacity was constructed at Naspur Colony to treat the domestic effluents and functioning from 09.07.2004.
12.	The company shall ensure covering of coal tucks with tarpaulin to avoid spillages of coal and fugitive emissions due to transportation of coal.				Trucks transporting the coal are being covered with tarpaulin and optimally loaded.
13.	The company shall adopt eco-friendly mining practices.				The company is adopting eco-friendly mining by adopting following practices. <ul style="list-style-type: none"> • Advance block plantation programs at Safety zones and surrounding Reserve forest Areas.

CFO Cond. No:	C.F.O Condition	Status of implementation
		<ul style="list-style-type: none"> • Provision of wet drilling to all Drill machines. • Round the clock water sprinkling of all Quarry roads, Haul roads and approach roads to & from Dump yards and CHP. • Fixed water sprinkling arrangements along Haulage roads, Roads at CHP, all loading, unloading and transfer points at bunkers and along conveyor belt (Surface)
14.	The company shall take steps for using fly ash for stowing operation in the under ground mines. The Company shall comply with all the relevant provisions of the Utilization of the Fly Ash Notification issued by MoEF &CC, Govt. of India.	It is being complied, apart from sand the company is using Fly ash as well as bottom ash.
15.	The company shall take-up extensive plantation under the Haritha Haram program of the State Government.	Being complied
16.	The Company shall provide and maintain Electro-magnetic water meters for recording water consumption for the total water drawn from the river and Dust suppression, Vehicle washings at workshops, Domestic, excess mine discharge etc.	It will be complied. The procurement of the Electro-magnetic water meters are under process.
17.	Soil binding and Nitrogen fixing plants shall be planted in the Mining Lease Area, Biological reclamation shall be done in two phases, the first phase shall be plant appropriate quick growing grass & shrubs and the second phase shall grow slower growing native shrubs & trees.	It is being complied
18.	The company shall take measures to control fugitive emissions at coal Handling area.	It is being complied
19.	The company shall develop green belt around CHP and along haul roads.	Being complied
20.	The company shall obtain amendment of EC incase of water consumption exceeds permitted quantity.	Will be followed
21.	The company shall operate Sewage Treatment Plant (STP) for treatment and disposal of domestic effluents.	One STP of 3.0 MLD capacity was constructed at Naspur Colony to treat the domestic effluents and functioning from 09.07.2004.

CFO Cond. No:	C.F.O Condition	Status of implementation
22.	The company should ensure restriction of suspended solids entry into natural drains.	Being complied
23.	The company shall take adequate measures to mitigate dust generation from drilling operations.	Adequate measures to mitigate dust generation from drilling operations are being taken.
24.	The company shall adopt latest blasting techniques so as to ensure minimum impact in the surrounding areas of blasting.	Being complied
25.	All waste material should be accommodated within the Mining Lease Area.	All waste material is being accommodated within the Mining Lease Area only.
26.	The natural drainage of water should be maintained. Dump sites should not cross any streams, water flow from the Mining Lease Area, even during the monsoon, should be free of suspended matter and conform to prescribed water quality standards.	The natural drainage of water is maintaining. Dump sites are not crossing any streams, water flow from the Mining Lease Area during all seasons including monsoon, and conforming to prescribed water quality standards.
27.	Check dams and filter beds should be constructed to protect from stream runoffs	Company is maintaining filter beds
28.	The Company should undertake suitable artificial recharge measures in the project area for augmentation of ground water resources. Ground water table levels should be monitored every season. Any lowering of the ground water table in comparison to the previous season should be reported to the Board immediately. Discarded pits should be allowed to fill with water	To comply the condition 32 Nos RWHS are made in the Area. Phreatic surface in the area around the project is being monitored four times (Every season) in the year using a network of 25 existing observation wells and 6 piezometric wells in Srirampur area. The reports are being submitted to the Ministry regularly. Phreatic surface and piezometric wells monitoring data is enclosed as Annexure-IV .
29.	Vehicles should be well maintained and engine idling should be minimized. Vehicle cabs should be made dust proof.	Being complied
30.	The applicant should submit Environment statement in Form-V before 30 th September of every year as per Rule No. 14 of E(P) Rules, 1986 & amendments thereof.	Environmental statement is being submitted to TSPCB at the end of September every year. The latest Environmental Statement was submitted on 15.09.2020 vide Lr.No: SRP/ENV/ U-004/ 2020/89 for the year 2019-20.

CFO Cond. No:	C.F.O Condition	Status of implementation
31.	The company shall comply with Task Force directions issued by Board from time to time.	The industry is committed to comply with the directions issued by the Task Force from time to time scrupulously without any deviation.
32.	All the rules & regulations notified by Ministry of Law and Justice, Government of India regarding Public Liability Insurance Act, 1991, should be followed.	Agreed
33.	The conditions stipulated in this order are without any prejudice to rights and contentions of this Board in any Hon'ble court of Law.	Agreed

**MONITORING DATA OF RAVINDRA KHANI – 6 (RK-6) INCLINE FOR THE
PERIOD APRIL, 2019 TO MARCH, 2020**

List of Annexures:

WATER UTILIZATION DETAILS OF RK-6 INCLINE FOR THE YEAR 2019-20

SI. No	Description	Quantity in KLD
1	Average quantity of water pumped out of the mine	3400.00
2.	Water consumption :	
A	Domestic:	
	a) Water used for drinking/bathing and other industrial requirement	40.00
	b) Water supplied for nearest township/village for domestic purpose	NIL
	Sub - Total	40.00
B.	Industrial :	
	a) Water used for plantation	100.00
	b) Water used for dust suppression	50.00
	c) Water used for stowing	NIL
	Sub - Total	150.00
3.	Excess water let out	1000.00

WASTE WATER GENERATION DETAILS:

Sl. No.	Particulars	Quantity in KLD	Point of disposal
1.	Excess mine discharge water	182.00	Excess Mine Water: After treatment for agriculture use / gardening.
2.	Domestic and others	1592.00	STP followed by onland use / gardening
	Total	1774.00
